TREND

Harmony of style and reliability of design.

Safe and reliable operation, efficient thermal insulation to provide comfort and convenience.

Wide selection of designs and colours to compliment any style of property, from a traditional period home to a modern day contemporary build.

ALUTECH sectional doors are safe, practical and price competitive with no compromise on quality.

7 BENEFITS OF ALUTECH DOORS

EFFECTIVE THERMAL INSULATION

Trend Doors save heat inside the garage, ensuring a comfortable temperature and efficient heating during winter time. The doors thermal insulation is comparable to a **55cm** brick wall.

MAXIMUM SPRINGS LIFE TIME

The standard springs life time is up to **25,000** open-close cycles, which equates to **17 years** of operation with 4 open-close cycles a day during the whole period of operation.

GUARANTEED SAFETY

ALUTECH sectional doors construction protects against:

- Finger trapping
- Catching and cutting,
- Uncontrolled door leaf movement
- Door leaf falling in case of spring break

The doors comply with European safety standards EN 12604, EN 12453, EN 12424, EN 12425, EN 12426.

* More detailed information about warranty terms and conditions are listed in doors operation manual.

DURABLE COATING

ALUTECH Doors withstand the impact of natural weather conditions (rain, snow, wind). The extended warranty is provided for the door panel – **10 years protection against perforated corrosion.**

High corrosion resistance is provided due to:

- Zinc coating **16mcm**
- Coating PUR-PA **20-25mcm**

CUSTOMIZED DIMENSIONS

ALUTECH doors are manufactured individually for each client within a standard price. Any dimensions with **5mm** increment in height and width are available for ordering.

SILENT OPERATION

Closed type rollers ensure smooth operation of doors. They are reliably protected against dust and there is no need for lubrication.

STYLISH DESIGN

ALUTECH Group of Companies offers a wide range of door designs:

- 5 types of panel
- Extended standard range of colours for doors — **up to 34 colours** without an extra charge.

TREND GARAGE DOORS

EFFICIENT SOLUTIONS FOR AFFORDABLE PRICES

Competitive
prices

Perfect
functionality

High quality
product

Trend Doors are the best option for your home within all locations and weather conditions.

The advanced technology used in the doors construction safeguards comfort, durability and safe operation.

DURABLE SYSTEM OF STEEL TRACK PROFILES

The steel track profiles are made entirely of galvanized steel. The **Steel front unit** is a robust, reliable construction with a long operational life time.

PROTECTION AGAINST DRAFT

Adjustable roller brackets allow the door to close firmly against the frame to protect the garage against drafts and heat loss.

ADDITIONAL PROTECTION OF FRAMES

During heavy rainfall, water can accumulate near the door. The polymeric base of the frame eliminates the risk of corrosion in high humidity conditions.

HARMONIOUS LOOK

- Painted frames and header profile match the door leaf perfectly.
- The door frame is painted in white (RAL 9016) as standard.
- The door frame can also be painted in other RAL colours upon request.

PERFECT DESIGN

EXCELLENT OPERATIONAL FEATURES IN ANY WEATHER

40mm

Trend
doors

Steel panels with a polyurethane foam filling

is a perfect insulated material, and is economical on heating.

Panel design ensures **protection against finger entrapment**, which is a requirement of European safety standard EN 12604.

Closed contour of steel sheets and special adhesive varnish ensures high panel durability and protects against delamination under the sun's heat or abrupt door closing.

Four layers of metal in positions where self-tapping screws are placed makes fixings stronger.

Durable polyurethane coating ensures the doors high resistance to corrosion.

Frost-resistant sealing made of EPDM

is a guarantee of high sound and thermal insulation.

STYLISH DESIGN

WIDE RANGE OF PATTERNS, OPTIMAL SET OF COLOURS

Trend doors will compliment any style of property, from a traditional period home to a modern day contemporary build.

There are 5 types of panels, 34 standard colours, as well as 3 “wood-finished” colours.

Painting in any RAL colour of your choice, we also have available natural stone or natural wood finishes on clients request.

5 TYPES OF
PANELS

34 STANDARD
COLOURS

3 WOOD-FINISHED
COLOURS

The **S-Ribbed** is a modern type of panel with equally positioned horizontal ribs.

The **M-Ribbed** panel has a flawless modern look which fits in with most modern homes.

The **L-Ribbed** panel will emphasise the individual style of your home.

The **Georgian** styled panel provides a traditional alternative for a sectional door.

The **Microwave** panel is the height of modern architecture with its elegant microwaves over the surface of the door leaf.

STANDARD RAL RANGE

The colours are printed and may not match exactly. Colours shown are for illustrative purposes only. Samples available upon request.

OPTIONAL EXTRAS

INBUILT WICKET DOOR

An inbuilt wicket door is a practical solution for the entrance to the garage. It makes the doors operation more convenient and extends the doors life time.

Two leading trademark operators in different price segments for easy door control.

For additional comfort and safety, the following accessories are available: digital keypads, photocells, signal lamps as well as remote controls for roller-shutters, garage doors and entrance gates.

LEVIGATO Series

ALUTECH in-house development.
Next level automation systems designed
on the basis of time-proved solutions and
technological improvements.

- Built-in LED-lighting
- Yard territory lighting control with remote control
- High speed models — up to 20 cm/sec
- Design developed by the leading Italian agency
- Operational voltage range 160-270V

GENESIS Sectional Door Opener

Featuring the latest in safety & security
technology, the **GLIDEROL GENESIS**
offers quiet, reliable garage
door automation

Features & Benefits

- Easy to use digital LED display
- Glide-A-Code security encryption
- Courtesy LED for convenience & safety
- Safety auto reverse

Opener Kit Includes

- Genesis powerhead (800N)
- Brackets & fittings kit
- 3 x G+ remotes & 1 x wall cradle
