BETTER SCRATCH RESISTANCE & UV STABILITY

The new woodgrains are a paint finished surface instead of the traditional surface bonded film.

They outperform films for scratch resistance. The images show scratches being made first into film and then our new painted finish.

After a clean the painted finish is almost good as new (left) ✓ whilst the film (right) ✗ shows the damage.

Not very scientific, we know, but you get the point.

The paint finish is also more UV stable over time, retaining colour for longer and less prone to the finish becoming "milky" in strong sunlight.

More wood-like

The paint finish has better graining so it looks more, well, like wood!

It means that from a distance, grain can be seen instead of appearing to merge into a solid colour, so kerb-appeal is greatly enhanced - customers will love it.

OLD...

...AND NEW

PAINTED WOOD EFFECT FINISH

A PERFECT MATCH, NO MORE COMPROMISES

Making frame legs and sections from surface film introduces stress marks at each bend so it's not an option.

With our painted finish there are no such limitations. Frame legs, headers and our ** 3-D covers and renovating angles no longer complement... ...they match!

With our between fix frame option, which has no holes to the front face of the frame, fitting within the opening now means an edge to edge matching finish and no need for 3-D cover profiles.

Your customers will love it!

The Standard Frame with back fixing holes and the Between Fix Frame with no back fixing holes

PAINTED WOOD EFFECT FINISH

MATCHING FRAME LEGS & HEADER

MATCHING **3-D PROFILES & RENOVATING ANGLES

** Golden Oak 3D profiles are finished in a complementary flat colour to RAL 8014.

Teckentrup is a family business with operations throughout the world. In the UK we make our garage doors in Warrington, Cheshire. CarTeck Automatic is available through a national network of independent Garage Door Specialist installers.

Teckentrup offers more than garage doors: We provide solutions and have set three quality standards for our garage doors:

Design. Security. Service.

Design

We combine ease of use with aesthetics.

Good design uses innovative technology to make using a product intuitive and effortless. CarTeck Automatic sectional garage doors offer a wide range of design options that will transform the look of your home and the way you use your garage space.

Safety & Security

We combine security with safety.

Our products are designed to provide peace of mind with both physical security and the knowledge that durability and safe operation are inherent.

Service

We combine speed with reliability.

The Teckentrup team and our network of Garage Door Specialists installers love to make your new door a pleasure to own. From planning to installation. You'll always receive expert advice and the best service for installation, maintenance and aftercare.
