

Autodor and Duragrain Sectional Garage Doors

NEW Choice of surface finishes and colours

Introducing Autodor

The Autodor is a new sectional garage door supplied complete with a GaraMatic 9. This new door retains all the usual features you have come to expect from a Garador sectional garage door, but at a lower price point.

Autodor comes in either Linear Medium or Linear Large door designs, each of which are supplied in a choice of 6 colours and 3 timber effects. The inside of the door has a silver coloured galvanisation which is covered with a clear protective lacquer.

Linear Medium designs available in 6 Woodgrain and 3 DecoColor surface finishes, whilst the Linear Large designs are available in 6 Planar and 3 DecoColor surface finishes. The Planar surface finish is only available with an exclusive matt deluxe paint.

With a choice of 27 standard garage door sizes up to 5000mm wide, you are sure to find a door to fit your opening. The Autodor comes with tension lifting gear up to 4000mm wide and torsion lifting gear thereafter.

Please refer to the Autodor price list for full specification.

Fully insulated door sections

The Autodor is manufactured with 42mm thick garage door sections, filled with insulating PU foam. With u-values down to $1.30 \text{ W/m}^2 \text{ K}$, it provides great thermal insulation contributing to potential savings on your energy bills.

Electrically operated design

The Autodor is conveniently opened at the touch of a button. Supplied complete with a GaraMatic 9 operator and two 2-button micro hand transmitters. GaraMatic 10 operator available as an optional upgrade.

A good seal all round

Weather resistant seals on all four sides of the door, along with intermediate seals between every section joint, helps to create a tight seal and prevent drafts.

Plastic frame footer

The frame leg is fitted with a plastic bed plate. This provides long-term protection against corrosion that might be caused by humidity, acids or salts.

Autodor and GaraMatic 9 Operator

The Autodor provides excellent value, without compromising on functionality. The GaraMatic 9 operator is simple to operate and is designed with a soft start and stop feature, to prolong the service life of the motor. It has a maximum opening speed of 20cm / second and automatic safety reversal in the event of an obstruction.

Optional bluetooth receiver

Operating the Autodor via a smartphone is possible, using the Garador BlueSecur app. An optional bluetooth receiver (HET-BLE) is required.

Bisecur hand transmitters

The Autodor comes with two 4-button hand transmitters, with a small form factor that fits comfortably in your pocket. Transmits on 868 MHz frequency with bisecur radio technology.

Integral LED light

The GaraMatic 9 features an integral LED light with 10 LEDs for energy efficiency. Furthermore, it has a low power consumption of less than 1 watt in stand-by mode.

Secure mechanical locking system

The operator boom is equipped with a secure mechanical lock to prevent forced entry. Even in the event of a power cut, the door cannot be forced open.

Safety assured

The Autodor sectional garage door and operator has been engineered with your safety in mind and will therefore comply with British Standard BS EN13241, ensuring powered doors are safe to use.

Linear Medium Designs

Linear Medium designs provide an excellent first impression on modern and traditional homes. The Autodor in Linear Medium is supplied complete with a GaraMatic 9 operator.

Traffic White (RAL 9016)

White Aluminium (RAL 9006)

Grey Aluminium (RAL 9007)

Titan Metallic (CH 703)

Anthracite Grey (RAL 7016)

Terra Brown (RAL 8028)

Golden Oak (Decocolor)

Dark Oak (Decocolor)

Night Oak (Decocolor)

Please note: the Decocolor surface finish does not match the timber effect finish of our standard sectional door range or FrontGuard doors.

Surface Finish for Linear Medium Designs

The Autodor in Linear Medium comes in either Woodgrain or Decocolor surface finishes, with a choice of 6 colours for Woodgrain and 3 timber-effects for DecoColor. The full range of colours are included in the price of the garage door.

Woodgrain

On this inexpensive, robust surface with an authentic sawn timber look, minor scratches can be easily repaired by working with the texture.

DecoColor

The Decocolor surface finish gives your Autodor an authentic timber effect appearance.

Linear Large Designs

Linear Large designs are perfectly suited to contemporary properties with modern architectural features. The Autodor in Linear Large is supplied complete with a GaraMatic 9 operator.

Traffic White (Matt Deluxe: CH 9016)

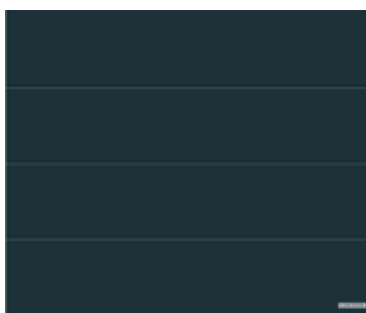

White Aluminium (Matt Deluxe: CH 9006)

Grey Aluminium (Matt Deluxe: CH 9007)

Titan Metallic (Matt Deluxe: CH 703)

Anthracite Grey (Matt Deluxe: CH 7016)

Terra Brown (Matt Deluxe: CH 8028)

Golden Oak (Decocolor)

Dark Oak (Decocolor)

Night Oak (Decocolor)

Please note: the Decocolor surface finish does not match the timber effect finish of our standard sectional door range or FrontGuard doors.

Surface Finish for Linear Large Designs

The Autodor in Linear Large is available in 6 Planar colours with a deluxe matt finish and 3 DecoColor surface finishes. The full range of colours are included in the price of the garage door.

Planar

The sophisticated and very smooth planar surface finish, is ideal for modern architecture and comes in a choice of six exclusive matt deluxe colours.

DecoColor

The painted DecoColor surface provides a natural and authentic timber appearance and is available in a choice of three colours.

Matching Autodor Garage Side Door

Fully insulated garage side doors are also available, with designs to perfectly match the colour and surface texture of your Autodor sectional garage door. Available in a range of standard sizes. Linear Medium designs are in Woodgrain or DecoColor surface finishes, and Linear Large designs are in Planar or DecoColor surface finishes.

Introducing Duragrain

The Duragrain surface finish, with its UV-resistant print and scratch resistant coating, ensures a beautiful door design that will stand the test of time. There are 24 different decorative printed colour finishes that are detailed and natural in their appearance.

Duragrain sectional garage doors are only available in a Linear Large style and are supplied in Grey White (RAL 9002) on the inside of the door. Side frames and fascias are delivered in Woodgrain (Traffic White RAL 9016) as standard. Lintel and frame fascias are supplied in Traffic White (RAL 9016) as standard or optionally in a colour complementing your Duragrain door.

Duragrain door design

Choose from 24 decorative colour prints for your Duragrain sectional garage door, which includes stone, metal and timber effect prints.

- 1** Premium insulated 42mm thick door sections, with double-skinned steel fascia and PU foam infill.
- 2** Surface hot galvanised steel on the interior and exterior of the door panel.
- 3** Grey White (RAL 9002) primer paint applied to door exterior and interior.
- 4** Decorative full colour finish printed onto the outside layer of the priming sections. This UV-resistant print ensures a natural, colourfast appearance that won't fade or wash out.
- 5** The final Duragrain coating is scratch-resistant and permanently protects the innovative printed colour exterior from the effects of the environment, helping to maintain the door's beautiful appearance for many years.

The natural appearance of stone

Choose from a range of stone effect prints for your Duragrain sectional garage door, each with a highly realistic image. With designs ranging from concrete to Grigio Scuro there's lots to choose from. We also offer a Rusty Steel print design, for those seeking a more distinctive weathered metal appearance.
