

# Garage Door Operator "duo vision"

▶ control unit with integral radio receiver (FM 868.8 MHz) for wall and ceiling installation

▶ controlled open and close soft run

## The benefits of duo vision are:

- ▶ separate control unit includes an integrated light and push button for convenient door opening
- ▶ separate control unit can be located near an existing socket anywhere in the garage
- ▶ accident prevention through electronic regulated force measurement with DPS - Dynamic Power System
- ▶ connections for light barrier, push button, warning light and TorMinal (programming device)
- ▶ universal power supply (on front or rear of the rail)
- ▶ tack unit with 2,600/3,000/3,400 mm travel length available

The duo control unit can be mounted near the rear (1) or front (3) door, on the ceiling or (2) directly on the rail (4).
